

Education

- 2019–Present **University of Washington, Seattle, WA.**
Ph.D. in Computer Science
Advised by Jennifer Mankoff
- 2014–2019 **University of Illinois at Urbana-Champaign, Urbana, IL.**
B.S. in Computer Science; Mathematics and Business minors

Interests

Accessibility of Higher Education.

I want to make higher education more accessible to students with disabilities. My current projects involve using optimization techniques and machine learning to make slideshow presentations more accessible to a wide variety of disabilities and creating tools to support better communication around accommodations.

Awards

- 1 Dennis Lang Award in Disability Studies (2021)
- 2 Google Lime Scholar (2020)
- 3 NSF Graduate Research Fellowship Recipient (2019)
- 4 ARCS Foundation Scholar (2019-2021)
- 5 Wilma Bradley Endowed Fellowship in Computer Science & Engineering (2019)
- 6 UIUC Bronze Table (2019)- top 3% of class
- 7 Boeing Women in Engineering Scholarship (2018)
- 8 NVIDIA John Nickolls Memorial Scholarship (2018)
- 9 Snap Inc. Research Scholar (2018)
- 10 CRA Outstanding Undergraduate Researcher Award Honorable Mention (2018)

Industry Experience

Jun '20 – **Microsoft Research.**

Sep '20 *Research Intern:* Ability Team; Advised by Meredith Ringel Morris

- Created interface designs in React.js to encourage engagement with and quality of alternative text for images in PowerPoint
- Performed interviews with alternative text authors and screen reader users to verify the validity of designs and further improve them
- Compiled and presented a final set of alternative text design considerations to the PowerPoint team to allow for future implementation

May '19 – **Microsoft.**

Aug '19 *Software Engineering Intern:* Interaction for Everyone Team

- Added additional functionality to Narrator, Microsoft's screen reader software, to improve the reading of math using C++ and interacting with the COM framework
- Won second place in the company-wide hackathon and first place in the M365 hackathon (project details under NDA)

Aug '18 – **Snap Inc.**

Nov '18 *Research Intern:* App Platform Team; Accessibility Evangelist

- Led an accessibility-themed research project looking at how deaf and hard of hearing users interact on social media
- Created an interview protocol and survey to answer our research questions
- Learned how to perform statistical analysis techniques on survey data to explore the results and performed open coding on qualitative interview responses
- Developed and delivered a presentation related to the importance of accessibility to team members, executives, and the CEO of Snap Inc.
- Instigated Snap Inc.'s first disability-focused employee resource group

May '18 – **Microsoft.**

Aug '18 *Software Engineering Intern:* Platform Health Team

- Built a web application using the ASP.NET MVC framework to correlate user feedback with available data to help diagnose the root cause of issues on Windows devices
- Applied basic natural language processing techniques to link the text from user feedback to concrete scenarios we can further investigate
- Participated in a hackathon project with members of Microsoft Research to create a novel experience for Narrator screen reader users
- Created and delivered a presentation to my team explaining the importance and benefits of making all of our content and applications accessible

May '17 – **Facebook.**

Aug '17 *Software Engineering Intern: Accessibility Team*

- Improved the quality of using the Facebook Android app for users with dyslexia and also the experience of newsfeed for those who use screen readers
- Updated an algorithm that determines the best alternate text for images to be read by screen readers

Teaching

Spring '21 – **CREATE Accessibility Seminar Facilitator.**

Fall '21

Fall '20 – **DUB HCI Seminar Facilitator.**

Spring '21

Invited Talks

Oct '21 **Introduction to Disabilities- University of Washington.**

Service

Aug '17 – **Girls Who Code.**

Present *Facilitator*

- Organize and run weekly chapter meetings for up to 30 girls from grades 6 through 12 by creating lesson plans and helping girls one-on-one with activities that teach them how to code
- Created and taught a workshop that educated members about what accessibility is, how to think about inclusive design, and how to design artifacts so they are accessible for people with a wide range of abilities
- Developed a series of web lectures to teach members about web accessibility including how to properly nest content, CSS guidelines, how to properly create links, and more

Jan '21 – **UW Changemakers in Computing.**

July 21 *Facilitator*

- Developed curriculum to teach high schoolers basic python programming, AI, and tech ethics
- Mentored a group of 5 students closely throughout a summer curriculum and final project
- Taught students lectures on python basics and ran office hours to help unblock students on assignments
- Organized and hosted the programs final Hackathon
